Overview

RM Infrastructure Income PLC ("RMII" or the "Company") is a closed-ended investment trust established to invest in a portfolio of secured debt instruments. The Company aims to generate attractive and regular dividends by investing in Loans sourced by RM Funds (the "Investment Manager" or "RM"). The Loans in which the Company invests are predominantly secured against company assets, real estate, plant and machinery and/or income streams such as accounts receivable.

NAV

The NAV % Total Return for January 2023 was +0.66%, which takes the NAV % Total Return to +2.30% over the past six months, and, +5.45% over the past 12 months.

The NAV as at 31st January 2023 was 93.10 pence per Ordinary Share, which was 0.608 pence higher than at 31st December 2022. This overall gain comprised positive interest income net of expenses of 0.611 pence per Ordinary Share and a decrease in portfolio valuations of 0.003 pence per Ordinary Share.

Portfolio Activity

As at 31st January 2023, the Company's invested portfolio had an aggregate valuation of £126 million across 38 investments. The average yield was 9.26%, with a weighted average loan life remaining of 1.41 years. Overall, the portfolio is 96% invested in private market assets and 4% in public bonds. The Investment Manager's focus on creating a portfolio of high yielding and short duration loans that do not hold significant exposure to interest rate movements, ensures the portfolio remains well positioned against any further interest rate increases by global central banks.

The redeployment of capital at higher yields is now starting to have a positive impact on the Company's net interest income, with current run rate income exceeding the net interest income requirement for the annual dividend target. Looking ahead at 2023, on the current run rate basis, which is expected to be maintained, the portfolio is forecast to generate a net interest income of more than 7 pence per share.
