This Key Information Document is dated 12-03-2025.

## You are about to purchase a product that is not simple and may be difficult to understand

## What is this product?

<b>Type</b>	The Company was incorporated in England and Wales on 27 October 2016, as a public company limited by shares and listed on the London Stock Exchange Main Market.
<b>Objectives</b>	The Company aims to conduct an orderly realisation of the assets of the Company, to be effected in a manner that seeks to achieve a balance between returning cash to Shareholders promptly and maximising value. The assets of the Company will be realised in an orderly manner, returning cash to Shareholders at such times and in such manner as the Board may, in its absolute discretion, determine. The Board will endeavour to realise all of the Company's investments in a manner that achieves a balance between maximising the net value received from those investments and making timely returns to Shareholders.
<b>Intended Investor</b>	Typical investors in the PRIIP are expected to be institutional investors and professionally advised or financially sophisticated investors, who can evaluate the merits and risks of such an investment and whom have sufficient resources to be able to bear any losses.
<b>Term</b>	The Company has no maturity date. However, following the 2023 AGM resolution, the Company has entered into a managed wind-down.

## What are the risks and what could you get in return?

The risk indicator assumes you keep the product for 3 years. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Investors shall note that the product may be exposed to risks such as counterparty risk, currency risk, credit risk, interest rate risk, leverage and liquidity risk. For further details of the Fund's risks please see the Prospectus which is available from the Company's website:

<https://rm-funds.co.uk/rm-infrastructure-income/>

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Investment Performance Information

The main drivers of the Fund's performance will be the investment manager's degree of success in selecting investments and the market value of those investments.

As the Fund invests across different global regions, the return can also be affected by the macro-economic factors impacting on those economies.

This product does not track or compare itself to an index, benchmark, target or proxy. However if you hold the product through an investment adviser/investment manager, that person may set an appropriate benchmark against which you could compare its performance.

### What could affect my return positively?

Low credit losses within the portfolio will lead to enhanced returns as there is an expectation of credit losses that might not be realised. Typically, positive economic conditions are conducive to low credit losses within the portfolio.

### What could affect my return negatively?

High credit losses will reduce returns as this will erode investor capital and reduce income returns. Periods of weak economic growth can lead to these higher-than-average credit losses.

Under adverse market conditions, an investor could suffer significant and prolonged, or even permanent, loss of capital. The maximum possible loss is 100% of the money invested in the Company. There is no minimum guaranteed level of capital to be returned.

## What happens if RM Infrastructure Income plc is unable to pay out?

The value of the shares in the PRIIP is directly impacted by the solvency status of RM Infrastructure Income plc. No service provider to the PRIIP has any obligation to make any payment to you in respect of the Ordinary Shares. There are no investor compensation or guarantee schemes available to investors, should RM Infrastructure Income plc be unable to pay out. You should be prepared to assume the risk that you could lose all of your investment.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

### Table 1: Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios (£10,000)	If you exit after 1 year	If you exit after 3 years
Total Costs	£210	£422
Impact on return each year	2.1%	2.1%

### Table 2: Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

One-off costs	Entry costs	0%	The impact of the costs you pay when entering your investment.
	Exit costs	0%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	2.1%	The impact of the costs that we incur each year for managing your investments.
Incidental costs	Performance fees	0%	The impact of the performance fees.

## How long should I hold it and can I take my money out early?

### Recommended holding period: 3 years

The recommended holding period for the product is 3 years, however, the shares of the PRIIP trade continuously on the London Stock Exchange and is not bound by any prescribed redemption or sale restrictions.

## How can I complain?

As a shareholder of RM Infrastructure Income plc you do not have the right to complain to the Financial Ombudsman Service (FOS) about the management of the PRIIP. Any complaints concerning this Product or the key information document should be sent to PFSUKTeamMailbox@apexgroup.com or RM Infrastructure Income plc, 4th Floor, 140 Aldersgate Street, London, United Kingdom, EC1A 4HY - Attention: Company Secretary.
